PROJECT: SCHOOL WEBSITE AND  
LEARNING MANAGEMENT SYSTEM

# BRANDIS-SCHOOLS PROJECT

---

SCHOOL DYNAMIC INTERACTIVE WEBSITE.

LINK :

<https://www.brandisschools.co.za/index.html>

ACCESS TO UPCOMING LEARNING  
MANAGEMENT SYSTEM.

ACCESS TO ALL OUR ACADEMIC  
COMPETITIONS.

# Introduction.

---

## Why Us?

We have spotted and pondered the gaps in the African education system and the ecosystem entirely. We have thought carefully about them. We have realized that for us to be able to bring change to this, we have to start by giving the little we have, which is to build all schools dynamic, interactive websites and school management systems, and initiate fun but beneficial academic competitions to help learners get energized and grow their love for education. Although this is not going to be a simple task, we have broken our mission into smaller sub-goals. **Below are the steps on how we are going to achieve this (Vision 2024).**

## Vision 2024

---

- 1) We create websites for all schools in South Africa. The website serves as the digital face of the school and helps learners, parents, sponsors and guests reach the schools digitally.
- 2) We create a school management system that is strictly accessible to legally registered learners, parents, and educators.
- 3) We will offer educational competitions for schools and learners with amazing prizes like computers and funds based on our budget for that. This will also help us gain recognition in the education industry.  
**(our first competition will run on Jan-Fed 2024. More details to be issued, don't miss it!)**
- 4) We will initiate a program to encourage learners to participate in entrepreneurship; this will help them think differently about job creation, just like they do with job seeking. This is good for our future economy. Funds will be given to winning participants to help them chase their dreams in entrepreneurship.

We have managed to make most of the functions of the website just one click for simplicity and accessibility.

---

## Website Features

- Online applications(controlled and managed by the school).
- Online School Contact form on the website(easy contact process)
- Admin resource management (By School Admin).
- Educators are able to send learners homework from home.\*
- Learners are able to complete academic quizzes through the school system.\*
- Learners are able to submit their assignments online.\*
- Communication through SMS, email and notice posting on the school website. \*
- View school stats and performance(controlled by the school).
- Learners can receive content and academic information and resources from school.
- People/Clients/guests can get the school information about the school at ease.
- And many more...

## Subscription (non-contract subscription)

---

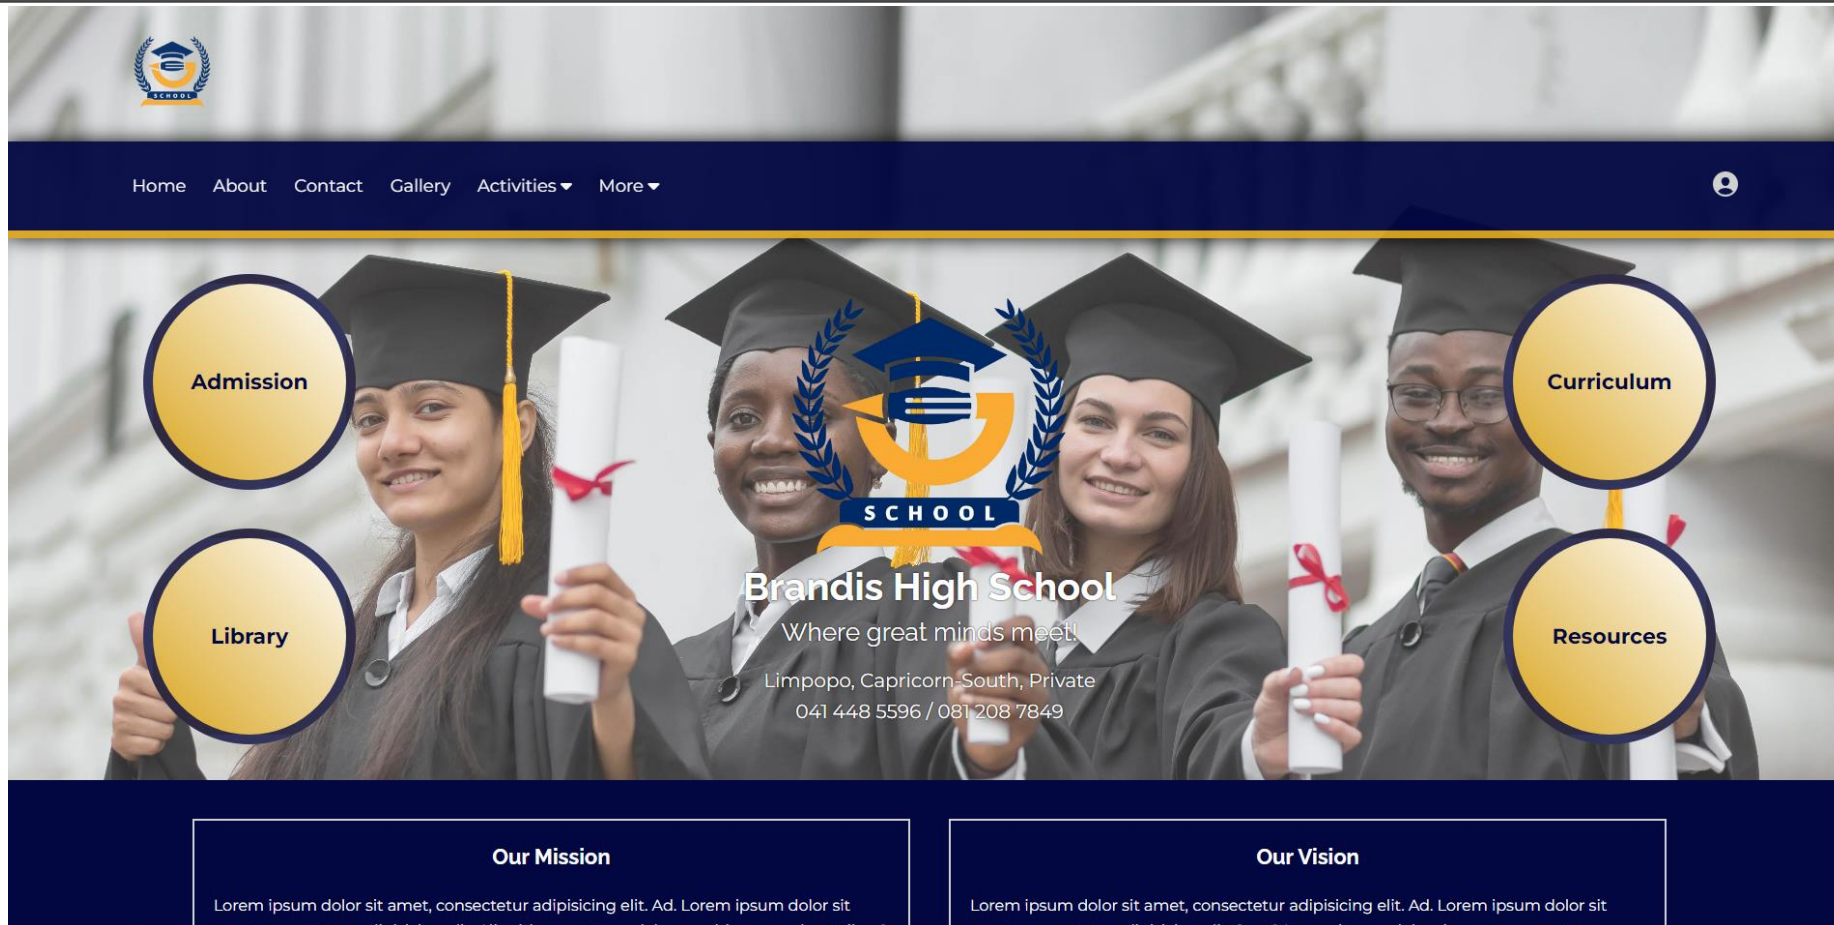

School can request a 30-DAY “[DEMO WEBSITE FOR FREE](#)” for a fully functional and customized website (before payments and critical decisions).

Each school will be charged a maximum of R2500 annually (**once-a-year**). This includes: a website; access to the school management system; access to all competitions mentioned above; and more.

With our R2500 annual package fee, we prioritize quality, accessibility, and affordability so that no school is left out.

The funds generated through the project will help us hire professionals for growth, help schools more, especially public ones, through sponsorship, and lastly, help us expand the education system by introducing advanced technology, extracurricular activities, and relevant training equipment like in other developed countries.

What is Lorem Ipsum? Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum
